## Professional Summary

I am a student at Ho Chi Minh City Open University, majoring in Software Engineering. I am seeking an internship opportunity to gain hands-on experience and work with industry professionals. My goal is to become a skilled software engineer, and in the future, I aim to expand my expertise in DevOps.

## Education

### Ho Chi Minh Open University

10/2022 - Now

**Major:** Information Technology

## Technical Skills

### Programming Languages:

Python, Java, C#, C++, Javascript (Intermediate)

### Web Development:

HTML, CSS, Django, Flask, ReactJS, ReactNative (Intermediate)

### API Development:

RESTful API (Django) (Intermediate)

### DevOps & Automation:

Docker, Jenkins, Bash Scripting (Basic)

### Database Management:

MySQL, SQLite, Microsoft SQL Server (Intermediate)

### Version Control:

Git, Github, Gitlab (Basic)

### Operating System:

Linux (Basic)

## Languages

English

## Experience

### AU-GlobalGroup — Python Development Internship

**Time period:** 02/2025-05/2025

Modify, optimize, and debug web scraping bots that collect data from LinkedIn and Glassdoor. Utilize Python libraries such as Selenium, BeautifulSoup, Pandas, Numpy, and Matplotlib for automated data processing.

## Projects

### Bus Management System — 10/2024-11/2024

Description: A website that supports bus trip management and helps customers book tickets online

Technology: Python, Flask, SQLite

Github: <https://github.com/binhfnguyeen/BusManagement>

### Clinic Management Website — 10/2024-12/2024

Description: A website that helps to manage a private clinic

Technology: Python, Flask, MySQL

Github: <https://github.com/binhfnguyeen/ClinicManagement>

### Maintenance Equipment System — 03/2025-04/2025

Description: Application to help manage equipment that needs maintenance, schedule maintenance and pay bills

Technology: Javafx, Java, Mysql

Github: [https://github.com/TinyLove123/Kiem\\_thu\\_phan\\_mem.git](https://github.com/TinyLove123/Kiem_thu_phan_mem.git)

### EcomSale Web API — 04/2024-06/2024

Description: Deployed Django REST API on Render to serve as the backend for an e-commerce system. Integrated with a React Native mobile frontend.

Technology: Django REST Framework, Python, Mysql, Cloudinary, Render.com

Github: <https://github.com/binhfnguyeen/EcomSaleTestApi.git>

### EcomSale Mobile App — 04/2024-06/2024

Description: Built a mobile app using React Native for an e-commerce platform, connected to a Django REST API. Implemented features such as product browsing, cart management, real-time chat, and order placement.

Technology: Django REST Framework, Python, Mysql, Cloudinary, Render.com

Github: <https://github.com/binhfnguyeen/EcommercePlatform.git>
